

# GERMAN-AUSTRIA COMING UNDER INFLUENCE OF SOVIET TENDENCY

10,000 Iron Smelter Workers At Donawitz Drive Managers Out Because Wages Are Not Raised; Argument That Allies Will Cut Off Food Fails, Because They Seem Willing To Treat With Communist Hungary.

VIENNA, Austria, April 11.—(By Associated Press.)—German-Austria is coming under the influence of the establishment of soviet governments in Munich and Budapest. At Donawitz 10,000 workers in the iron smelting plants have driven out the managers because the latter have refused to grant increased wages. The coal miners there are reported to have considered similar action and there is a prospect that employees of the coal mines will take over control of the properties and elect their own managers.

Bank Clerks Demand More Pay. Bank clerks at Vienna are demanding higher salaries. At one bank the salaries paid before the war totaled 11,000,000 crowns, which amount was increased during the war to 25,000,000. It is now faced with the demand for the payment of 11,000,000 more, which will make a sum equal to the yearly dividends of the banks before the war.

The communists of German-Austria have been told that if communism is adopted here the allies would cut off food supplies, but this argument has been rejected.

Quinine That Does Not Affect Head. Because of its tonic and laxative effect, LAKATZ BROMO QUININE (Tubertal) can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine," E. W. GROVE'S signature on the box. 3c.—Adv.

# 157TH INFANTRY ARRIVES IN U. S.

Disabled Transport Gets To New York With Part of 40th Division.

New York, April 11.—The transport Lullia Luckenbach, carrying the 157th Infantry complete and which reported by wireless she had lost a propeller at sea, arrived off Ambrose lightship today from Bordeaux.

The 157th, 72 officers and 2,620 men, is part of the 40th (national guard) division from California, Nevada, Utah, Colorado, Arizona and New Mexico. The men will be distributed among 17 camps.

There is an organization of women's Red guards forming now, but its 100 members are occupying themselves with the most part with propaganda work.

Many of the aristocratic women of the city have been reduced to want. The Red guards, however, have property worth \$1,000,000 or more, now is playing a heavy hand on a cheap restaurant for her food.

All the palaces have been converted into barracks for the working men's societies and clubs.

A leading fashionable hotel was originally designated by the Red guards as a barracks and the guests were notified to quit within a few hours. The hotel was then converted into a barracks.

On hearing this, Bela Kun, speaking to a telephone and told the Red guard to find quarters elsewhere.

The attempted exodus of the well to do class is continuing and there is a flourishing trade in foreign passports. American passports are being sold at as high as \$1,000.

## EL PASO HERALD

### Single Agitator Possibly Caused A Near-Mutiny

Lack Of Dash To Yankees Archangel Operations Makes Morale Low.

Washington, D. C., April 11.—There were no additional reports at the war department early today on the situation at Archangel, where a company of American troops were involved in a mutiny, refusing to obey orders to entrain for the fighting line until appealed to by their regimental commander. Absence of news since the report made public last night was regarded as a favorable sign.

It was assumed that "the general mutiny" which the members of this company would develop unless prompt assurances came from Washington that the American forces in northern Russia were to be withdrawn, could not have materialized without Col. George H. Stewart, the American commander, having found means to rush through a report.

One Man To Blame? It was noted in an official statement given out last night by the war department that only one member of the company continued to refuse to obey orders after Col. Stewart had taken personal charge of the situation.

It appeared possible to some officers here that the entire situation had been created by this man. A single agitator, it was said, can do much to unsettle a command, and the fact that Col. Stewart was obliged to arrive to release this man from confinement before the company would obey orders and board the train for the front line indicated that this soldier has obtained a grip on his comrades.

Situation Had Poor Morale. It was recognized by officers that the situation of the American forces in northern Russia was particularly unpleasant. Weather conditions are trying because of the extreme cold, there is little of the dash about the work there, the character of the war in France, and reports from home tell of the return of the army to civil life.

No Unsettled Regulars. The units at Archangel are not seasoned regular soldiers. They are selective service men, but in the past they have shown a very high quality of morale in facing the unpleasant task before them so long without complaint. Even now, officers argued, the mutinous company probably would show an immediate change of heart if a general attack on the Bolshevik forces, which are harassing the command, was undertaken.

### LIEUT. HART GIVEN HONORS

Son of Capt. D. H. Hart Is Given A British Scholarship.

Capt. D. H. Hart, clerk of the U. S. district court for western Texas, is one of the proudest fathers in the state for his baby son, Lieut. Thomas Hart, only 23 years of age, has just been given a British scholarship for efficiency in service in France.

Lieut. Hart was one of two officers selected from his regiment, the 357th Infantry, 8th division, to go to an English university and he was assigned to Cambridge. He entered the last of February.

He was in his second year in the law class at the University of Texas when war was declared. He at once enlisted and was sent to the officers' training camp at Leon Springs. He was commissioned a 2d lieutenant and the officers promoted to first lieutenant.

He played left end on the famous football team at the State university, and was a member of the Phi Kappa Psi chapter at the University of Texas. He was killed in action, and "Pete" Dittman, the great center of the team, was wounded in France but recovered.

He was also captain of the "Varsity" baseball team. Very tough, not large, had a magnificent physique. After his physical examination at Leon Springs, the chief surgeon, Dr. Frederick Schuchman, to his great embarrassment, said: "This is the man nearest the perfect standard I have seen in many years."
